

GIVE HOPE TO AUSTRALIA'S THREATENED WILDLIFE

AWC is delivering some of Australia's most important conservation projects.

Every gift is hugely appreciated, whether small or large, and could mean the difference between survival and extinction for some of Australia's most threatened species.

Donations are tax deductible. Please complete donation details overleaf.

A. Supporting partnerships to unlock conservation at scale

Help AWC to undertake inventory surveys of threatened species and assess conservation values at partnership sites such as on NAPCo's property portfolio

- \$62 will purchase an SD card for a remote camera trap
- \$200 will purchase tools such as mallets, shovels and crowbars for remote surveys
- \$500 will fund a field ecologist (including equipment and vehicle) for a day
- \$2,500 will purchase a thermal scope to help identify nocturnal species during biodiversity surveys

B. Supporting conservation land management activities

Help support the delivery of landscape-scale land management activities across AWC sanctuaries and partnership areas

- \$100 will fund feral cat control (baiting) for one month at one sanctuary
- \$750 will purchase 2,500 incendiaries for use in AWC's award-winning fire management program
- \$1,500 will fund fence repair materials
- \$2,500 will purchase materials to construct feral pig traps

C. Supporting threatened mammal reintroductions

Help AWC to deliver critical mammal reintroductions in 2022 and beyond

- \$160 will purchase a cage trap for monitoring reintroduced species
- \$350 will purchase an antenna for remote tracking the movements of reintroduced animals
- \$630 will purchase a camera trap to monitor and record animals
- \$950 will equip AWC vehicles with spotlights for use during translocations and to help survey nocturnal species
- \$12,000 will purchase an aerial booster to extend the range over which reintroduced mammals can be tracked

D. Supporting Ecohealth surveys, science and research

Support AWC ecologists and Indigenous rangers to conduct Ecohealth surveys at sanctuaries and partnership sites across Australia

- \$150 will purchase ingredients to make bait balls for Elliot and camera traps
- \$378 will purchase a pair of binoculars for bird surveys
- \$450 will fund equipment to survey 10 granite outcrop and saltpan Ecohealth sites
- \$1,000 will fund a camera trap with batteries for 1 year
